

Aum Crystals is Cosmonutraceutical crystals with multiple applications. Aum Crystals consists of 100% pure ingestible far-infrared Tesla crystals, harmonic sound frequencies, and Human Blueprint™ frequencies from minerals, which have been embedded with ZeroPoint™ Technology.

AUM CRYSTALS — HOW ENERGY FROM THE CRYSTALS GET INTO THE BODY?

Nikola Tesla believed that all the energy we needed was already available to us in nature. He believed that we should be able to share that energy with each other. Aum Crystals is energy you can share.

Your body emits energy and like a mirror and the crystals send it back. The energy reflected back to the body creates a constructive interference pattern which increases the amplitude of the wave. Think of it in terms of volume. The higher the amplitude of a sound wave the louder it is. In relation to your body, the more energy is available to move the water circulating the blood and lymph system. Infrared Crystals have the ability to send and receive frequencies of energy wave patterns, especially those within the frequency spectrum between 3 and 24 ums. It also has a unique FWHD emission within the human back body emission of 9.4 um.

Only calcium based colloids with a content of 80% or more of a Tesla Crystal can successfully send and receive frequencies that are capable of penetrating deep into a human body. This is vital information for those who find Tesla Crystal rich in the ability to send and receive frequencies within the Far-infrared Spectrum. Tesla Crystals that are bound to minerals that interfere with incoming and outgoing energy frequencies are rendered useless to biological systems that require this type of energy to operate. This repeating formula creates a colloidal lattice which can change form depending on what it is exposed to.

Tesla Crystals higher in calcium keep the lattice unstable which maintains the crystals capacity for energies to remain in constant flux. This is also referred to as a cation exchange capacity, the potential for change. The calcium bond is so weak that geologists question if it even is a part of the lattice to begin with. Fortunately this weak bond gives the calcium potential to be exchanged with toxins like lead, fluoride mercury and aflatoxins like candida imprisoning them into the jail cell of the crystal which refuses to let them go.

Aum Crystals is an all natural Tesla Crystal that charges the water in the body via far-infrared emissions, increasing blood and lymph circulation; combined with its ionic substitution value, removes harmful toxins and enhances the body's ability to create a healthier balance between the body and its environment.

COSMONUTRICEUTICALS — a term coined by Vibranz, refers to the combination of cosmeceutical and nutraceuticals that have been infused with Human Blueprint™ Frequencies for biofield balance. The term 'nutraceutical' was introduced during the 80's to describe supplements that are generally derived from natural ingredients to provide wellness benefits similar to pharmaceuticals. Cosmeceuticals are cosmetic personal care products that can provide wellness benefits similar to pharmaceuticals.

HOW ZEROPOINT™ TECHNOLOGY IN THE VIBRANZ AUM CRYSTALS WORKS

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. Vibranz has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Human Blueprint™ Frequencies. When a person ingests or applies Aum Crystals to their body begins to resonate with the frequencies that are in the Aum Crystals through a process called Sympathetic Resonance and when exposed to light, Biophotonic Entrainment also occurs. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to resonate at the same frequency. When the organs and systems of the body are attuned with the frequencies that are in Aum Crystals, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.
