HOW ZEROPOINT™ TECHNOLOGY IN THE VIBRANZ AUM CLAY WORKS

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. Vibranz has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Human Blueprint™ Frequencies. When a person ingests or applies Aum Clay to their body, it begins to resonate with the frequencies that are in the AUM Clay through a process called Sympathetic Resonance and when exposed to light, Biophotonic Entrainment also occurs. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to resonate at the same frequency. When the organs and systems of the body are attuned with the frequencies that are in Aum Clay, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

AUM Clay is available in 4 oz. bottles

The Chakras (balls) are spinning vortexes of subtle energy and are crucial for everyday balance and wellness. The left, BEFORE scan, shows misalignment in some of the chakras and insufficient energy as well. The circle shadows present are showing the other scan chakra positions. Note how the chakras are center aligned to support body function AFTER ingesting Aum Clay.

The 'field' around the body shows the symmetry between left and right sides of body. Symmetry is important for healthy function. The gaps or decreased energy relates to organs, glands or body parts. Note the stronger energy field after ingesting Aum Clay.
