## HOW ZEROPOINT™ TECHNOLOGY IN THE VIBRANZ ORAL HEALTH CARE SYSTEM WORKS

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. Vibranz has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Human Blueprint™ Frequencies. When a person uses the Oral Care System, the body begins to resonate with the frequencies that are in the ingredients through a process called Sympathetic Resonance and when exposed to light, Biophotonic Entrainment also occurs. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to resonate at the same frequency. When the organs and systems of the body are attuned with the frequencies that are in the Oral Health Care System, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

## ORAL CARE HEALTH SYSTEM DIRECTIONS

**Mixing Oral Care Powder:** Using the spatula, mix 2/3 of the Sirius Silver bottle and 1 packet of Mint Matrix into the powder mixture. Let the liquid saturate into the powder for 10 minutes. Mix the paste thoroughly with the spatula. For consistency and taste preference, add the remaining Sirius Silver and/or the second provided Mint Matrix packet for taste.

**For best results:** Use the paste for brushing at least 2x a day and the spray before or after brushing.

**NOTE:** The Oral Care Spray can be used as Pre-brushing or post-brushing, your preference.  
Both the Oral Care Spray and mixed Oral care paste may be ingested.

**COSMONUTRICEUTICALS** — a term coined by Vibranz, refers to the combination of cosmeceutical and nutraceuticals that have been infused with Human Blueprint™ Frequencies for biofield balance. The term 'nutraceutical' was introduced during the 80's to describe supplements that are generally derived from natural ingredients to provide wellness benefits similar to pharmaceuticals. Cosmeceuticals are cosmetic personal care products that can provide wellness benefits similar to pharmaceuticals.

## BLOOD MICROSCOPY STUDY

BEFORE

AFTER

**Before:** Upon Waking in the morning. This kind of blood is unhealthy. Blood is anemic and shows signs of dehydration. The abnormal cells are clustered.

**AFTER:** 5 minutes after 5 pumps Oral Care Spray, 1 minute swish, gargle and swallow. 1 minute brush and swallow. This kind of blood is healing. This shows an alkaline state where good health and healing can take place. The clumped cells have separated which allows more oxygen between cells to achieve optimum cell function.

## ORAL CARE HEALTH SYSTEM TESTIMONIALS

*"I have used the Oral Care System and brushed with electric toothbrush twice a day. I love these combined products and find I have a clean healthy mouth! My teeth are whiter, not pearly white, but I am mid-eighties!! I have not had any bleeding ever and I am giving my gums much scrubbing! Knowing the background of the product I feel so blessed to be using it daily and plan to continue to have this to use daily!" — Elizabeth H.*

*"My gum health continues to improve and I think the teeth are getting a bit whiter. Teeth feel smooth and clean" — Lori B.*

*"I have been using the spray and paste as directed for 2 months, once daily and am very happy with the results! I have periodontal disease and I have noticed gradual whitening and tightening of my teeth at my gumline. My Dental Hygienist did my exam, cleaning and told me to keep flossing and brushing like I have been (meaning she noticed a difference or would have asked me to do better). I then asked her if my pockets were any better? She said my pockets were only slightly better, she noted quite a bit less tartar buildup and it only took 25 minutes for this cleaning as opposed to the normal 40 minutes." — Laura B.*

*"My teeth feel clean, my gums feel strong. I really love the spray on acne. It is amazing how quickly it goes away. I can spray it on in the evening and by morning there's no signs of it. Granted it's a mild case. I still spray it where my basal cell cancer was occasionally just to make sure it stays way. I also feel after I brush my teeth at night that my whole body seems to calm down and relax." — Brenda G.*

*"The product does remove teeth stains from tea/coffee. Spraying my teeth at night before putting on Invisalign seems to make teeth brighter in morning ... I don't rinse that out. It is a big help to use the paste and spray to keep tartar off/down." — Lynn O.*

*"I am using the spray AFTER I'm done brushing my teeth... The spray refreshes my mouth and makes my teeth feel clean and slick. Seems to help soothe any sensitivity that I might have. Teeth still nice and white and less tartar build up." — Harriet Y.*
