

Red NaturaLaser is a red cold-laser light laser with proprietary Human Blueprint™ Frequencies infused into the light by ZeroPoint™ Technology. These frequencies bring the body into balance and energetic homeostasis.

HOW DOES THE RED NATURALASER WORK?

It works through a process Vibranz calls Biophotonicmodulation. Every eukaryotic cell in an animal's body has one or many thousand cellular power plants called the mitochondrion. These mitochondria are responsible for providing most of the required ATP for cells. ATP is the chemical responsible for energy release within cells that drives a multitude of cellular and physiological functions including those directly related to injury repair and pain relief. When a cell is damaged through injury or trauma, the mitochondrion, figuratively speaking, curls up like a hedgehog. Once this happens, the production of ATP is drastically reduced, or even ceased. As a result, the rate of healing slows dramatically. Cells exposed to the Red NaturaLaser light causes the mitochondrion to spring into action almost immediately producing increased amounts of ADP. The ADP then links with free oxygen singlets to produce ATP. Red Laser light increases the production of ATP in damaged or resting mitochondria.

RED NATURALASER USES

Many professionals such as Chiropractors, Veterinarians, Sports Medicine doctors and pain centers are now using Laser technology to treat their clients and patients.

ADD/ADHD: Run Red NaturaLaser around the ear lobes (auricular points), shine at middle of tongue, shine across the line at base of skull and up along the midline of the head. This can also be useful for autism and other learning and brain dysfunctions.

ADDICTIONS: Shine the Red NaturaLaser on the edges of the ear, concentrating on the edge of the ear, just below the top back curve of the ear. Use several times a day while detoxifying.

ASTHMA/BRONCHITIS: Use the Red NaturaLaser on the lungs by pointing it directly on the chest as close to the skin as possible for a few minutes or until relief occurs.

BACK/SPINE ALIGNMENT: Shine the Red NaturaLaser across the hips and up and down spine for 1-2 mins. to assist in hip/back alignment.

BLOOD CLEANSING/ENERGIZING: Shine the Red NaturaLaser 1" below navel for approx. 2 min.

EAR INFECTIONS: Shine the Red NaturaLaser around earlobes, on mastoid bone behind ear and on Eustachian tube down into the ear. Also shine into ear canal to work on bacteria or fungus.

EAR CONING/EAR CANDLING: While coning or candling, run the Red NaturaLaser along all ear points and Eustachian

tube and back of the ear. Seems to allow ear to release more wax and yeast.

HYPOTHALAMUS/PITUITARY STIMULATION: Shine the Red NaturaLaser onto the middle bottom of the large toes.

INJURY: Shine the Red NaturaLaser to assist with closing of wounds and reduction of bruising on injured body parts.

JET LAG: When arriving, use the RedNaturaLaser on the back of the knees.

LIBIDO BALANCING: Concentrate the Red NaturaLaser on the upper area of the ear particularly the top back curve of the ear and on the inside of the ankles.

NAUSEA/SEASICKNESS: Use the Red NaturaLaser on the auricular points as well as the finger tips and the web between the thumb and forefinger on both hands.

SINUS ISSUES/INFECTION: (Avoid eye contact) Use the Red NaturaLaser on third eye area in the middle of the forehead and beneath the nose in the dips of skin at the bottom side of the nostrils.

TOXIC MATERIALS EXPOSURE: If already exposed, use the Red NaturaLaser on the following areas: side of nostrils, auricular points, base of head, across the middle to the top of the head to reset your body.

PETS: The Red NaturaLaser increases cellular regeneration without any tissue damage. Produces healing benefits to treated tissue and has been shown in studies to increase healing by as much as 3x faster than conventional treatment procedures.

HOW ZEROPOINT™ TECHNOLOGY IN THE VIBRANZ RED NATURALASER WORKS

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. Vibranz has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Human Blueprint™ Frequencies. When a person points the Red NaturaLaser at the area of discomfort, their body begins to resonate with the frequencies that are in the programmed in the laser through a process called Biophotonic Entrainment. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to resonate at the same frequency. When the organs and systems of the body are attuned with the frequencies that are in the Red NaturaLaser, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

VIBRANZ RED NATURALASER MICROSCOPY (LIVE BLOOD ANALYSIS) STUDY

Live blood microscopy of a 51 year old male with no major health issues. No supplements were taken for 24 hours before the test.

BEFORE: Results show some sticky blood cells, some doughnut-shaped cells (yeast from sugar), some misshapen cells, and some debris in the serum next to white blood cells.

AFTER: Live blood microscopy of the same 51 year old male **5 minutes after drinking** one sip of a glass of water which was lasered for **10 seconds with a Vibranz Red NaturaLaser**. Results show perfect quality red blood cells and perfectly clean blood serum.

RED NATURALASER TESTIMONIALS

"I have dealt with high blood pressure for numerous years. Recently, it had gotten so bad I believed it was time to write my final wishes for the benefit of my family. I had called my son to my house on a morning when my blood pressure was extremely high, something like 225 over 119. While he was there, I had the thought of asking him to use the Red NaturaLaser across my lower back and up and down my spine. He took a few seconds to do so and then I retested myself. My blood pressure had dropped considerably to 160 over 80. I asked him to use the Red NaturaLaser again and retested. My blood pressure was normal! I have noticed in the weeks to follow that my blood pressure continues to rise, but as long as I use the laser every time, it is controlled!" — Reuben S., NC

"My daughter came down with a bladder infection, and screaming in pain. I red lasered her bladder accupressure points on her feet and teeth. She fell asleep and woke up 30 minutes later with no bladder infection!" — Lisa, FL

"I have developed Arthritis in my hands and one of worst areas is in my right thumb which was really bothering me the other night. Any time I would bend or flex it there would be a sharp pain in it. I simply held the Red NaturaLaser and held it on the spot where the pain was originating and in 10 or 15 seconds the pain was totally gone. I love to play the piano and using the laser on it gives me full dexterity of my hand and thumb. It is just wonderful to be able to have access to something that can really change your life." — Don, TX

"My son wrenched his back and hurt his hip very badly trying to get his mother-in-law in and out of her wheelchair. The next morning he was in so much pain. I used the Red NaturaLaser all over the area, returned in the afternoon and did the same thing. He hadn't slept at all the night before but told me the next day he had a fabulous sleep and was up doing laundry at 7:30am. So when I came over he hugged me so tight because he couldn't believe he was in so much pain and that it went away so quickly." — Sharon, NJ

"I was smacking my shoe on wall to get the sand out. I forgot that is where the wasps are... I got stung right in the face... These guys sting really hard. A pain shot down through the whole side of my face immediately, my jaw felt tight... It brought me to tears, and the whole side of my face was swollen and very red — even my nose, up to my forehead. I used the Red Naturalaser for a few minutes, on and off for a few hours. My co-worker, who thought I would be like that for a day or two, could not believe how much the swelling and redness went down so fast!" — Sierra, Costa Rica
