

Intention Disc is a Red Poppy Jasper semi-precious stone which is infused with Human Blueprint™ Frequencies that bring the body into balance. It can be used to assist in programming for alignment with your goals and intentions. The Intention Disc clears toxic waveforms from food, liquid and personal care products. It clears active memory of emotional trauma stored in cellular memory. The Intention Disc also uses sacred geometry to accomplish its clearing effects through the right hand spin of the disc. Wear as a necklace, placed in a pocket or in clothing to receive the full range of benefits.

2.5 oz, .5" diameter
Variations in color occur due to the Intention Disc being made from natural Jasper Stone. The differences in color do not change the effectiveness of each stone.

HOW ZEROPOINT™ TECHNOLOGY IN THE VIBRANZ INTENTION DISC WORKS

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. Vibranz has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Human Blueprint™ Frequencies. When a person wears or holds the Intention Disc, their body begins to clear incoherent energy (disturbing memories, traumatic events). This clearing allows for the body to return to a balanced state. The body is able to protect and heal itself when it is in balance. Many diseases or conditions have been linked to emotional traumas and beliefs.

INTENTION DISC TESTIMONIALS

"After reading about how others have responded emotionally to the Intention Disc, I began reflecting on my use of this pendant. I wear my disc as a necklace every day to work. I work at a hospital which is rife with patient drama, nurse/doctor/staff conflicts and inter-office politics. It can be a very emotionally draining and contentious atmosphere in which to work. I have even been the target of a fair amount of (unwarranted) character assassination. As I said, after reading about the emotional aspects of wearing the Intention Disc, I began to realize how every day I've gone to work, somehow, even though I was initially feeling depressed, unmotivated or worried about what the day held and, except for a few of the worst days, I have been able to go in with enthusiasm and a smile on my face. I really do believe the Intention Disc helps me process my feelings and fortify me for the day. I do notice I feel stronger and more self-assured without there really being any other reasons for this confidence other than I am wearing the Disc." — Dakotah D., KS

"My first time holding the Intention Disc was indeed a "wake up call". I immediately felt a sensation in the back of my neck, rising up and over my head. Kind of like an 'energetic pop' followed by a feeling of relief and alignment. I had experienced a traumatic neck and back injury last year, causing my Atlas to be misaligned. I had a treatment a few years ago to align it, and I could tell it was out. What relief! In just a few moments, my highest intent for healing took place. I am truly grateful." — Pamela C., HI

"I used the Intention Disc with muscle testing to release the fear from the diagnosis of cancer. My client agreed to the traditional chemo and radiation treatment and had tremendous fear wrapped around the whole process. The process of using the Intention Disc removed the emotional component, so she could focus on the healing. Much less stress... She also used the Intention Disc on the site of the first treatment, relieving the memory. The Green NaturaLaser was then used on the big 4 as well as the site of chemo. Her whole being shifted and relaxed." — Practitioner Robyn G., FL

"I have been unemployed for one year, and the financial stress, anxiety and fear of the unknown has been increasing by the day. I have a difficult time sleeping – tossing and turning – I am lucky if at best I get 2 or 3 hours of broken sleep. I discovered on the recent newsletter a new way to explore my Intention Disc to clear toxic frequencies from my subconscious mind. We know that water stores the memory of negative messages, and since the human body is approximately 80% water, give or take, it stands to reason that our body's cells and tissues and organs also store the memory of negative messages. Last night, I went to bed with my Intention Disc in hand, and every time my sleep was disturbed and I was startled awake in a panic by a negative thought creeping in to my subconscious, I asked for my Intention Disc to release all incoherent toxic frequencies that were not conducive to my overall physical and emotional health and well being, and I returned to sleep like a baby." — Margee B., FL

"I used the Vibranz Intention Disc on Minnie, a tiny Daschund that came from a physically abusive home. The dog would squeal and bark every time anyone would walk anywhere near her. I set the intention to remove any negative memories or images from the dog and held the Intention Disc on her back for several minutes. I repeated the process on three separate occasions over a few months. Her owner says she notices a huge improvement in her dog. I definitely notice the difference, since she used to always bark at me, and now she runs up to me and lays on her back by my feet to be petted." — Velvet C., RN

"I woke up in middle of the night with a pain in my left side – enough to wake me from a sound sleep which was very uncomfortable. So I grabbed the Intention Disc and put it on my left side and within a matter of minutes I went off to sleep quickly and didn't recall the pain any longer and didn't wake up until the morning. So not only does it clear emotional traumas, but it also clears physical negative energy because it did take away my pain immediately." — Phyllis, CT

"I grew up on a farm and the treat we had as children was ice cream. So I have had an addiction for ice cream all my life. I have worked in holistic wellness for over 30 years and have gotten rid of everything else – I can pass up cookies and pies but never have been able to get rid of the ice cream addiction. So I did the protocol on the Technical Data sheets for the Clear SET and did a meditation with the Sodalite Pendant and Intention Disc about a month ago asking to clear the emotional trauma that was causing the addiction from my childhood. I have not had any cravings for the last 4 weeks – I can totally ignore it just like everything else now. I love these products – they are great." — Joe, TX
